

Size Guide

Rings

Measure your ring size at the end of the day when fingers are at their largest. Consider the width of the band, a particularly thick band will feel tighter than a thin band so you may want to buy a full size larger than your normal ring size. Ensure that your ring sizer fits comfortably, snug enough so that so that it will not fall off, but loose enough to slide over your knuckle. Do not measure your hands when they are cold.

Bangles

To know the right size for a bracelet or bangle, you will need to measure your wrist. To do so, use a flexible measuring tape around your wrists to know the size that would fit you best. Do not pull too tightly as you want it to fit you comfortably.
